A Groundbreaking, FDA-Cleared Treatment for Urinary Incontinence

Urinary incontinence affects far more than physical comfort. It can disrupt sleep, limit activity, create emotional distress, and cause many people to suffer in silence. The fear of public accidents can lead to social withdrawal, workplace challenges, and loss of confidence.

ReStora EMS offers a discreet, clinically backed solution that can drastically reduce symptoms after just a few short sessions. This innovative treatment allows providers to increase practice revenue while improving the quality of life without surgery, medication, or downtime.

**Discreet,

WHAT PROVIDERS ARE SAYING

“I've got many patients who have told me that just with one or two treatments, their symptoms just get better and they have a lot more confidence.”

Russel Palmer, MD
Plastic Surgeon
Fort Lauderdale, FL

“Of all of the equipment I've purchased over the years this is the first one that had a response rate of 100%.”

Meredith Vandegrift, MD
Plastic Surgeon
Huntington, NY

“I thought adding pelvic floor therapy to my wellness center meant spending \$100,000 until I found a solution that delivers fast results without the 6 figure risk.”

Meghan Murphy, PT
Romeo, MI
